# ***Kangaroo Court***

***FUNDRAISER***

***Sunday, April 21***

A kangaroo court is an informal or unofficial court that ignores recognized standards of law or justice, carries little or no official standing, and is typically convened ad hoc. It also intentionally disregards its legal or ethical obligations. The term may have originated from the notion of justice proceeding "by leaps". Come see why a "Class Reunion Individual" ends up in Court. Could it possibly be "You" on Trial?
